Report to the Green Bay Plan Commission

MEETING DATE

May 7, 2019

PREPARED BY

Paul Neumeyer, Staff

AGENDA ITEM # K.I.

To deny the request to amend the City's Comprehensive Plan for a property located at 1725 North Irwin Avenue from Commercial to Industrial.

BACKGROUND

Reason for Request: To allow for a future rezoning of for the property for self-service storage.

Surrounding Zoning and Land Uses:

Subject Properties: General Commercial (CI)/Low Density Residential (RI) - existing self-service storage units/single-family home

North:	General Commercial (CI)	Restaurant
South:	Low Density Residential (RI)	Single & two family dwellings
East:	General Commercial (CI)/ Highway Commercial (C2)	American Legion, vacant, commercial
West:	Low Density Residential (RI)	Single & two family dwellings

Comprehensive Plan: The 2022 Smart Growth Green Bay Comprehensive Plan recommends commercial land uses.

Report: This request is in response to the potential expansion of self-service storage at 1725 North Irwin Avenue. The site has a split zoning with nearly the entire lot being zoned General Commercial (CI) and Low Density Residential (RI) for the westerly 53 feet of the lot. A majority portion of the lot is located within the AE district of the 100 year floodplain.

The site does contain existing self-service storage units in an "L" shape along the northwest corner of the property with a free-standing storage building on the north side of the property. 1729 North Irwin Avenue, the "L" shaped self-service storage unit was constructed in 1994; 1725 North Irwin is the free-standing self-service storage structure constructed in 1996 with an alteration in 2001. The south unit at 1707 North Irwin Avenue was constructed in 1991. An existing single-family home is located on the southeast corner of the property.

The parcel is 70,666 square feet or 1.62 acres in size. All existing uses on site are considered nonconforming to the existing zoning. The applicant proposes to expand the self-service storage units along the southeast corner of the property, see attached narrative from the applicant.

The Smart Growth 2022 Comprehensive Plan establishes the following review criteria for periodic amendments:

The change is consistent with the goals and objectives or other elements of Smart Growth 2022.

Staff feels the proposed amendment is not consistent with the goals of the plan or compatible with the surrounding land uses.

The change does not create an adverse impact on public facilities and services that cannot be mitigated. Public facilities and services include roads, sewers, water supply, drainage, schools, police, fire, and parks. The proposed development is located within the Urban Service Area and there are no significant issues relative to services or facilities. Development resulting from the change does not create an undue impact on surrounding properties. Such development should be consistent with the physical character of the surrounding neighborhood or would upgrade and improve its viability. The proposed change in land use could represent a much higher intensity use relative to the surrounding properties if the future land use would be changed to industrial. The current proposal does not represent the highest and best use of the property.

The change allows a more viable transition to the planned uses on adjacent properties than the current land use. The proposed industrial land use is not compatible surrounding low density residential and the commercial nature along North Irwin Avenue.

The change does not have a significant adverse impact on the natural environment including trees, slopes, and groundwater, or the impact could be mitigated by improvements on the site or in the same vicinity. There are no known environmental impacts. Measures will have to be taken to flood-proof any future structures.

There is a change in City policies or neighborhood characteristics that would justify a change. Not applicable. The change corrects an error made in the original plan. Not applicable.

There is a community or regional need identified in the Comprehensive Plan for the proposed land use or service. Not applicable.

The change helps the City meet its life-cycle and affordable housing goals. Not applicable.

The change does not adversely impact any landmarks or other historically significant structures or properties unless mitigated through relocation, commemoration, or dedication. There are no landmarks or historically significant features that are being modified as part of the request.

The proposed amendment, if approved, would allow the balance of the property to in-fill with self-storage units. The existing self-storage units were constructed in 1990 and were permitted under the First Business (BI) district now the General Commercial (CI) district. Since the update to the Zoning Code in 2006, self-service storage units were removed from the General Commercial (CI) district and are now only permitted in the Light Industrial (LI) district as a Conditional Use Permit (CUP) or permitted in the General Industrial (GI) district. Self-service storage units are considered an industrial use as defined in the Zoning Code and would have to be zoned accordingly to be permitted.

Based on the proposed request, staff feels the subject area is along the southern edge of a small commercial area that serves the immediate neighborhood. Opportunities exist to improve and redevelop the surrounding commercial properties to higher and better uses. An amendment to the subject property would create an industrial spot that is not compatible with existing commercial and low density residential areas.

Our staff does not support a change the future land use as the amended is not currently consistent with the current plan recommendation, current zoning and surrounding land uses with low density residential to the south and west. The subject property and nearby properties to the north and east represent an area for commercial uses to service the immediate area. Existing self-service storage units can remain and be used along with the option for expanded commercial on the southeast corner of the property.

In addition, the corridor along this portion of North Irwin, immediately south of I43 represents not only a commercial area but, an entrance to Bay Beach and the Wildlife Sanctuary.

The Public Participation Plan for Periodic Comprehensive Plan Amendments is being followed for this request and notices have been provided regarding the public hearings for this meeting. Ald. Lebfvre and neighbors within 200 ft. have been noticed of the meeting based on Plan Commission policy. Staff has received one inquiry as of the drafting of this report.

RECOMMENDATION

Denial of the request.

BADGER STATE STORAGE GB LLC

March 7, 2019

Dave Heil
Badger State Storage GB LLC
Po box 27596
Golden Valley Mn 55427

Regarding the proposal for the add on parcels 1725 to 1709 N Irwin Ave Green Bay WI 54032. We have invested extensively into creating a proposed secured site that will conform well with nearby residences.

As shown below the secure fenced perimeter will solve all local theft concerns, in addition we will also be upgrading the entire site's lighting to LED downcast that will not emit any light pollution but increase security at entry points.

We have remote surveillance planned and will be able to respond to ground conditions immediately.

This site has been running at 100% occupancy for over a year now, so we would like the opportunity to grow with the local demand as well.

Please review our proposal, we are willing to address any concerns to make this site more of a destination for the local community.

We have seen this situation before with zoning concerns and have worked very diligently to make sure that conditional use is beneficial to everyone involved.

STATE STORAGE GROUP

As of today the site appears to be half way constructed when driving by. The site also has no means of security, poor landscaping, and a house that is nearly end of life.

Current Street View

Group Bio and introduction

David J Heil –CEO

- Studied at NDSU and completed a bachelor's in mechanical engineering 2004.
- Retired from Honeywell 2015 as a Senior mechanical design engineer
- 2016 Started the self storage portfolio valued right under 10 million in assets by end of year. By Completion of constructing over 50,000 Sq ft in Mn and WI.

Addresses expanded and Rehabbed to date:

1418 Main St. Houtlon WI 54082 –added 12k Sq ft, 2 buildings, and designed layout and water retention layout

1407 Main st Houlton—added 2 building 10k Sq ft and redesigned stormwater management and regrading/repaved site

2070 Hwy 65 New Richmond WI— Added 2 buildings and 10k Sq ft, replaced all roofs and doors to bring up to 2018 self storage specifications.

-2018 2 sites issued occupancy from ground up development.

36333 Forest Blvd North Branch

5560 152nd St N Hugo MN

Dave W Heil –COO

-Retired progression from 35+ years as commercial construction foreman in 2016 to help build the storage portfolio. (Oxentenko, Bismarck ND)

-Built and general contracted multiple homes that have since sold for a tremendous profit due to tight quality control in the last 25 years.

-High end homes valued around the 1 Million dollar target.

Matt and Rachel Brummer- Majority equity Partner

Matt and Rachel Brummer are entrepreneurs who have an extensive background in business development, sales, and management. Matt has over 12 years of industrial automation expertise, and is also experienced in residential construction and commercial road construction.

Rachel has 12+ years of professional sales and management experience with several market leading SAAS companies.

Looking forward to working with local city council committee to bring some life back into this property.

Report to the Green Bay Plan Commission

MEETING DATE

May 7, 2019

PREPARED BY

Paul Neumeyer, Staff

AGENDA ITEM # K.2.

To authorize a Conditional Use Permit (CUP) for a proposed hotel and for the hotel to exceed the maximum height limitations located at 1004 Brett Favre Pass, subject to compliance with all of the regulations of the Green Bay Municipal Code not covered under the conditional use permit, including standard site plan and building plan review and approval.

BACKGROUND

Reason for Request: To permit a hotel use and to allow the hotel to exceed the maximum height requirement of 35 ft.

Surrounding Zoning and Land Uses:

SUBJECT	Planned Unit Development (PUD)	Vacant restaurant
NORTH	General Commercial (CI)	Hotel
SOUTH	General Commercial (CI)	Vacant, parking
EAST	PUD-Planned Unit Development	Light industrial uses/brewery
WEST	Village of Ashwaubenon	

Comprehensive Plan: The 2022 Smart Growth Plan and the Legend's District Master Plan designate the subject area as Commercial (C). The proposed use of the subject property is compatible with and is not contradictory to the applicable recommended policy and the future land use map.

Consistency Analysis: While Ch. 66.1001 Wis. Stats. does not specifically require conditional uses to meet the consistency requirement; the proposed Conditional Use Permit is consistent with the current zoning of the property.

Report: The subject property is located on the site of the former Brett Favre's Steakhouse, along Brett Favre Pass and Tony Canadeo Run. Brett Favre's Steakhouse site plan was approved in April of 1998 and was constructed later that year. Previously, the Plan Commission reviewed and recommended, on two different occasions, a proposed Staybridge Hotel which at the time would have connected to the northwest corner of the existing restaurant with a court yard between the two buildings. The hotel was never constructed and the ownership of the subject property has changed. The current proposal is for a new luxury hotel called the Legacy.

The subject sites, as well as other nearby and adjacent sites were rezoned to a Planned Unit Development (PUD) in 2010, to address proposed off-premise signage for a series of properties which also regulated some future land uses for the immediate area. Hotel uses were included as a Conditional Use Permit (CUP) within the PUD and are to follow the General Commercial (CI) dimensional standards.

Site Analysis:

The lot size is approximately 136,125 sq. ft. or 3.13 acres with an existing one-story building with an approximate 23,154 square foot building footprint. On-site parking is provided with two driveway cuts onto Brett Favre Pass and one onto Tony Canadeo Run. There is an existing drive connection to the north connecting the Hilton Hotel to the subject property.

Proposed Hotel:

The proposed five-story hotel contains a total of 79 guest rooms comprised of 65 studio suites, 11 Classic Suites and 3 Grand Suites. There will also be a lobby bar and restaurant (Brasserie) on the main level, as well as a smaller bar and roof top patio on the 5th floor. There will also be 2 meeting rooms, wellness center, and fitness center.

There is a maximum height limitation of 35 ft. in the Planned Unit Development (PUD) /General Commercial (C1) district, the proposed hotel roof-height is approximately 75 ft. Within this area there are two other similar type hotels, Hilton Garden, located at 1015 Lombardi Avenue, directly north of the site, and Spring Hill Suites, located at 1011 Tony Canadeo Run, south of the site. The height is consistent with the generalized massing on Map 3.3 as shown in the Legends District Master Plan.

The Hilton Garden was constructed in 1999 under the General Industrial (GI) District and met the height requirements at that time; the hotel is five stories in height with 125 rooms. The Spring Hill Suites, originally built as a Cambria Suites Hotel, received a CUP in 2006, for the hotel use and to exceed the 35 ft. height limitation to 69 ft. 8 in.

The Legends Plan recommends industrial chic buildings; which as proposed structure is consistent with the plan. Building façade elevations area attached within this agenda and staff feels are consistent with the standards recommended in the plan below:

Building materials shall be of complementary colors and shall be used to break up the apparent mass and visual interest to the site and streetscaping. Matte materials are encouraged for large wall expanses, whereas gloss finishes are to be used as accents.

Building materials shall be varied in nature, with emphasis on high-quality materials in the pedestrian zone, such as brick or stone with accent materials, such as metal and tile accounting for no more than 20 percent of the façade. Simpler materials are suitable for upper portions of the building and sides not visible to the street.

Building materials shall not include materials such as EFIS, vinyl siding, and pressed wood siding.

Site Plan:

A concept has been submitted as part of the CUP review and a copy of the site plan is attached within this meeting packet. The proposed impervious site coverage is 70 percent and both ground-mounted and roof-mounted mechanical equipment will need to be screened per Chapter 13-1815, Green Bay Zoning.

The hotel is proposed to 79 rooms with the following break-down of uses within the hotel: Lobby Bar – 612 square feet restaurant(Brasserie) – 3,245 square feet Executive Board Rooms – 1,208 square feet (total between two rooms). Fifth Floor Bar – 1,788 square feet Roof Top Terrace – 2,375 square feet.

Based on the information provided above, approximately 136 will be required the site plan shows 132 on-site. Additional parking is available on the adjoining parcel with land owned by the applicant. Exact details about parking will be determined during the site plan review process.

Conclusion:

The land uses surrounding the proposed hotel are predominately made up of a mix of existing hotel/restaurant uses and some established light industrial uses; there are no residential uses in the immediate area. The proposed hotel is a complement to the existing developments in the area and will

contribute to the continued transformation of the area from a one-time industrial development to a commercial destination consistent with the City's Comprehensive Plan and the Legends District Master Plan. Ald. Johnson and adjacent property owners have been notified of the request. As of the drafting of this report, staff has received no inquiries regarding this request.

RECOMMENDATION

Approval of the request, subject to:

Compliance with all of the regulations of the Green Bay Municipal Code not covered under the conditional use permit, including standard site plan and building plan review and approval.

MEETING DATE

May 7, 2019

PREPARED BY

Stephanie Hummel, Staff

AGENDA ITEM # K.3.

To deny the request to declare City property surplus, located at 1531 Main Street, submitted by Rory Barth.

BACKGROUND

Primary Address: 1531 Main Street (Parcel 8-27)

Aldersperson/District: Ald. Craig Stevens / 5

Reason for Request: To declare City property as surplus property

Subject Parcel Zoning and Land Use: PI, Public/Institutional, Green Space

Surrounding Parcels Zoning and Land Use:

North: R1, Low Density Residential, Single-Family

South: Right-of-Way, Main Street

East: R1, Low Density Residential, Single-Family

West: PI, Public/Institutional, Green Space

Comprehensive Plan: The 2022 Smart Growth Green Bay Comprehensive Plan recommends Medium Intensity Retail, Office, or Housing for the surrounding area.

Assessor's Valuation: \$2,000

Analysis: This application was submitted by the property owner of 225 Newhall Street (parcel 19-323). The proposal includes declaring a portion of the subject property as surplus to then attach to parcel 19-323. Two options have been proposed (see attached), with the applicant preferring Option #1.

The current use of this parcel is passive green space. While the parcel is an odd shape since it runs along a diagonal road that meets with standard block-form streets, the parcel is considered a buildable lot. This is partially why it is designated for Medium Intensity Retail, Office, or Housing in our Comprehensive Plan. While there is not development currently proposed, there is development potential.

The Staff is concerned with the proposed surplus area due to the attachment of parcel 19-323. This would create a flag-shaped lot. The base of the lot as proposed in Option #1 would be 150-ft., with the street frontage being maintained at 80-ft. This would not require a variance as it would have to be over 50% of the frontage width. It does, however, create a parcel that is not favorable. Staff would find it more appropriate for the portion of the subject parcel immediately west of parcel 19-323 be declared and attached to said parcel (exhibit attached). This would provide cleaner parcel lines, and still leave additional room along the frontage of parcel 8-27 if future development were to occur.

Ald. C. Stevens, adjacent property owners, and reviewing agencies have been notified of this request. No objections were received as of the drafting of this report, though the City's Real Estate Specialist has

concerns about the creation of a flag-shaped lot.

RECOMMENDATION

Denial of the Request.

AGENDA ITEM # L.2.

To amend the Strategic Plan by adopting the proposed policy as a reference/guideline for further development of the Green Bay Public Arts Commission programming.

BACKGROUND

Chair Kent Hutchison would like to hold a discussion regarding expansion of GBPAC programs and offerings. The GBPAC Strategic Plan is attached for reference along with recommendations from Kent Hutchison.

RECOMMENDATION

FISCAL IMPACT

ATTACHMENTS

1. GBPAC Program Evolution and Expansion
2. GBPAC Strategic Plan 2018 - 2021

GBPAC Program Evolution and Expansion

What are the next steps in our program development? How can we create better opportunities for artists that will provide Green Bay with the strongest and most diverse portfolio of public art.

- Rotating Art Program (RAP)
 - In the next 1-2 years (phase 1)
 - ◆ Develop the remaining 4 concrete pads that have already been identified
 - ◆ Increase the award from 500 for 1 year to 1000 for 1 year
 - Over the next 5 -10 years (phase 2)
 - ◆ Identify 10 -20 more concrete pads for the expansion of the RAP program
 - ◆ Consider longer stints - 2-5 year commitments.
 - ◆ Consider awarding at 1500 - adapting to status quot
- Annual Grants Program (AGP)
 - In the next 1-2 years (phase 1)
 - ◆ Increase the award potential from 1500 to be matched to 5000 not to be matched
 - Maintaining that the larger asks will be leveraged with outside \$'s but matching will not be mandatory.
 - Over the next 5-10 years (phase 2)
 - ◆ Increase the award potential from 1500 to be matched to 10,000 not to be matched.
 - ◆ These projects would be defined as programs with a uniquely positioned standing such as having the potential of a huge impact or having extensive funds allocated.
 - ◆ These programs may be treated independent of any other internal constraints or restrictions.
 - Introducing the development of the GBPAC "Showcase" program
 - ◆ Increase the award potential from 1500 to be matched to 10,000 not to be matched.
 - ◆ These projects would be defined as programs with a uniquely positioned standing such as having the potential of a huge impact or having extensive funds allocated.
 - ◆ These programs may be treated independent of any other internal constraints or restrictions.
 - ◆ Would provide a formal procedure to handle large scaled projects

EXECUTIVE SUMMARY

Since its inception in 2016, the Green Bay Public Arts Commission (GBPAC) has strived to promote the arts, culture, and creative identity of Green Bay. By providing programming and grants to established and emerging artists, the GBPAC encourages the creation of public art projects, fosters meaningful relationships with the creative community, and makes Green Bay an arts and culture destination.

Over this brief period of time, the GBPAC has assisted in the creation of seven new public art projects involving sculpture, murals, and performance. Meanwhile, through a generous donation from the Wisconsin Public Service Foundation, we have coordinated the selection and creation of an \$80,000 kinetic illuminated sculpture that is set to be installed in the fall of 2018.

Now that we have established our core mission, vision and programs, we are preparing to expand programming into workshops, lectures, and preservation of the City of Green Bay's public art collection.

A successful organization is one that responds to the needs of those it serves and adapts to change, and we are proud of the level of quality and creativity that our programming has achieved so far. Looking ahead however, we intend to expand our visibility, grow our programming and develop our staff in order to sustain and deepen our community engagement. We will also increase our revenues by diversifying our income to sustain our programming in the future. This strategic plan provides the blueprint to propel us forward.

MISSION + VALUES

MISSION:

The Green Bay Public Arts Commission focuses on the creation and preservation of public art, and ensuring equal access for all to enjoy and engage with public artworks in Green Bay.

VALUES:

In funding artistic activities and supporting cultural programs in the community, GBPAC observes several key values in the creation of excellent public art:

- **QUALITY** – While presenting and supporting a multitude of diverse communities, all our projects meet the highest standards of quality and safety.
- **COLLABORATION** – We look to collaborate with other organizations within Green Bay to help us shape projects that are reflective of the community.
- **ACCESSIBILITY** – All our projects are free and accessible to the public.
- **INSPIRING** – Our projects are grown from creative inspiration, and are designed to encourage creativity and inspiration in the public.

CURRENT PROJECTS + PROGRAM AREAS

PUBLIC ART:

Since its creation in 2016, GBPAC has produced and supported several projects that not only beautify Green Bay but enhance it by encouraging thought and engagement from the community.

Rotating Art Program

GBPAC has installed several cement display pads throughout the City of Green Bay that will house temporary sculptures on an annual rotating basis. We help artists display and sell their artwork, and provide beautification to the surrounding community.

Annual Grant Program

Match grants are available for artists to produce public visual and performing art projects as well as projects in the humanities, permanent or temporary, throughout the City of Green Bay. We help develop a deeper connection between artists and the local government, and provide them with in-depth support to create their works of art.

CORE PRINCIPLES

Green Bay public art projects are inspired by these beliefs:

- Public art can inform the mind and nourish the soul and should be accessible to all. We envision a city where one can freely encounter outstanding and inspiring artworks throughout public space.
- Public art can help give voice to underrepresented communities and showcase the beauty of our diversity.
- Public art can bring people together from a wide range of backgrounds and present ideas and issues in a way that is enriching rather than confrontational.
- Artists should be supported in their creative work and given a public platform for expression.

VISION

PROGRAM EXPANSION:

1. Public Engagement:

- **ArtWalk** - Several ArtWalks will be scheduled to highlight specific art pieces and artists throughout Green Bay. During each ArtWalk, a local artist will be selected to speak about their work.
- **ArtTalk** - Talks and panel discussions will be organized to foster lively and rigorous conversation on the role and need for public art within Green Bay.

2. Public Art:

- Expand current Annual Grant and Rotating Art Programs to provide greater assistance to artists.

PRESERVATION:

Green Bay has over 200 pieces of public art. While this number continuously increases, there is no maintenance plan established for any of the work. We will partner with other arts organizations within the City to determine the origin and ownership of these established works of public art to engage best practices for their maintenance and care.

VISION CONTINUED

FUNDRAISING AND FINANCE:

The Commission and staff will work to increase and diversify sources of revenue while continuing to carefully monitor expenses. To develop diverse streams of income, the organization will enhance its efforts to raise income through grants, individual donations, and sponsorships. The Commission will play a key role in fundraising, and staff will further build the organization's fundraising capacity.

MARKETING AND AWARENESS:

The Commission will strengthen its brand by unifying all of its documents and promotional materials. The Commission will also develop and implement an integrated "Marketing and Communications Plan", resulting in greater awareness of the organization and participation in programs.

ARTISTIC + PROGRAM GOALS

PUBLIC ART PROJECTS / PROGRAM EXPANSION

Project Goals

- Ensure that our projects are widely accessible by commissioning and producing thought-provoking public art
- Produce works of art that reflect the diversity of Green Bay and its residents through:
 - Collaboration with artists both emerging and established, who work in a variety of media, and represent the multi-cultural landscape of the City.
 - Establishment of partnerships with local cultural, educational and social organizations.
- Provide the community with a collaborative and engaging art experience that they would not have at a traditional art museum.

Goals for 2018 - 2021

1. Increase opportunities for public artists and communities.

Strategies:

- Produce six or more public art projects each year, with one large-scale project worth between \$10,000 - \$20,000+ every year, plus more focused participation such as presentations and smaller projects by emerging artists.
- Seek partnerships with local organizations to encourage greater participation in programs.
- Seek artists for program participation, and establish opportunities for their work with local businesses.
- Develop guidelines and tools that will be used to expand the Annual Grant and Rotating Art Programs.

ARTISTIC + PROGRAM GOALS CONTINUED

2. Expand interaction between our projects and the general public.

Strategies:

- Expand our forms of public programming and engagement by hosting workshops, lectures, and panel discussions involving a wide array of arts professionals, city officials and academics.
- Continue to identify and secure public spaces for work.
- Expand the effectiveness of our communications, by taking advantage of social media.

3. Expand programming to include Public Engagement opportunities.

Strategies:

- Gather examples of similar engagement opportunities present in other organizations/communities.
- Identify what the general public within Green Bay would be interested participating in.
- Based on public opinion/engagement begin hosting Public Engagement events.

PRESERVATION

Project Goals

- Ensure that our works of public art are well maintained based on need
- Increase community awareness of current public art pieces and need for repair

Goals for 2018 - 2021

1. Produce a maintenance plan for the City of Green Bay's public artworks.

Strategies:

- Gather examples of similar maintenance plans from other cities.
- Develop roster of artworks needing repair. Prioritize based on factors that include; cost, greatest need, value to community, and public interest.

2. Establish a maintenance budget to assist with preservation of artworks.

Strategies:

- Include maintenance line within budget
- Focus fundraising efforts to build funds for this maintenance

3. Communicate need of public artwork scope and maintenance to public.

Strategies:

- Highlight pieces in need through social media outlets.
- Develop online database of all works to be viewed by the public and enhance visibility of works in need.

ARTISTIC + PROGRAM GOALS CONTINUED

FUNDRAISING + FINANCE

Project Goals

- Determine a variety of reliable streams of income and recognize donors
- Develop new funding sources
- Develop plan for donor recognition

Goals for 2018 - 2021

1. Prepare and develop an outline of income strategies.

Strategies:

- Engage Commission members and Fundraising Cabinet in the identification and cultivation of potential donors
- Recruit additional Fundraising Cabinet members with fundraising experience.
- Consider establishing an application fee for artists applying to the Annual Grant Program and Rotating Art Program
- Develop a thorough donor prospect list
- Establish individualized cultivation and stewardship plans for top donor prospects
- Monitor grant opportunities and write grant proposals as needed
- Pursue corporate sponsorship for public art pieces

2. Cultivate relationships with donors.

Strategies:

- Increase events/opportunities for existing and potential donors to develop awareness of the Commission
- Plan a donor appreciation event
- Establish online communication to continuously update donors

ARTISTIC + PROGRAM GOALS CONTINUED

MARKETING + PROMOTION

Project Goals

- Create marketing programs that build organizational awareness and drive program participation

Goals for 2018 - 2021

1. Increase the visual representation of the GBPAC.

Strategies:

- Unify the visuals of all guidelines and promotional materials to establish brand consistency
- Enhance the website to be more user-friendly

2. Develop a Marketing and Communications Plan to reach target audiences.

Strategies:

- Evaluate effectiveness of current communication strategies such as: press releases of events/pieces, E-newsletter, social media
- Regularly survey current followers how they heard about the Public Art Commission, and monitor data
- Utilize Public Engagement events as a time to inquire about the effectiveness of communications

3. Implement Marketing and Communications Plan with strategies including but not limited to:

Strategies:

- Utilize Commission members and volunteers to increase distribution of e-newsletter and social media posts
- Develop cross-promotional partnerships with local entities such as: arts and artist organizations, libraries, educational institutions, community groups, local online resources
- Enhance the use of Facebook and other social media to reach target audiences
- Increase e-newsletter subscriptions
- Utilize Commission members and volunteers to increase participation/visibility at community events (e.g. Public Engagement events – workshops, public discussions, etc.)

**RESOLUTION APPROVING A RELOCATION ORDER FOR
N WEBSTER AVENUE FROM UNIVERSITY AVENUE TO RADISSON STREET
PROJECT I.D. 4987-02-64
May 7, 2019**

BY THE COMMON COUNCIL OF THE CITY OF GREEN BAY, RESOLVED:

That the Common Council of Green Bay finds and determines that:

WHEREAS, the property establishing, laying out, widening, enlarging, extending, construction, reconstruction, improving, or maintaining a portion of a street/easement now designated as:

N WEBSTER AVENUE FROM UNIVERSITY AVENUE TO RADISSON STREET

and roads or lands in and about and leading to same, requires certain relocation or changes and the acquisition of lands or interests in lands as shown on the map or copy thereof marked:

**PLAT OF RIGHT-OF-WAY REQUIRED FOR
“N WEBSTER AVENUE FROM UNIVERSITY AVENUE TO RADISSON STREET”**

City of Green Bay, Brown County Wisconsin, dated May 7, 2019

pursuant to its authority under Section 62.22 and 62.23(10), Wisconsin Statutes,

NOW, THEREFORE, BE IT RESOLVED AND ORDERED THAT:

1. The said street/easement is hereby laid out and established to the lines and widths as shown on the said plat.
2. The required lands or interests in lands as shown in the plat shall be acquired in the name of the City of Green Bay.
3. This order supersedes and amends any previous order issued by the City of Green Bay.

**FINAL RESOLUTION AUTHORIZING
ASPHALT RESURFACING IMPROVEMENTS AND
LEVYING SPECIAL ASSESSMENTS AGAINST PROPERTY
May 7, 2019**

WHEREAS, the Improvement & Services Committee of the City of Green Bay, Wisconsin, held a public hearing at the City Hall at 6:00 p.m. on the 24th day of April 2019 for the purpose of hearing all interested persons concerning the preliminary resolution and Report of the Director of Public Works on the proposed improvement and has heard all persons desiring audience at such hearings on the following streets or portion of streets:

S. CHESTNUT AVENUE – Arndt Street to Howard Street

NOW, THEREFORE, BE IT RESOLVED BY THE COMMON COUNCIL OF THE CITY OF GREEN BAY:

1. That the Report of the Director of Public Works pertaining to the construction of the above described improvement, including plans and specifications therefore as modified, having been reviewed and discussed by members of the Improvement and Services Committee, is hereby adopted and approved.
2. That the Improvement & Services Committee is directed to advertise for bids and to carry out the work of such improvements in accordance with the Report of the Director of Public Works as approved and authorized by the appropriate Committee.
3. That the payment for improvements be made by assessing the cost to the property as indicated in said Report of the Director of Public Works.
4. That the assessments shown on and confirmed by the Report of the Director of Public Works as modified are true and correct, and found to be in the public interest are hereby confirmed.
5. That those special assessments not paid in cash shall be payable to the City of Green Bay in five (5) annual installments with interest thereon at the rate of four and one-half percent (4.5%) per annum.
6. That the City Clerk shall be directed to publish this resolution in the official newspaper of the City of Green Bay.
7. That the City Clerk shall be further directed to mail a copy of this resolution to every property owner whose name appears on the assessment roll, whose post office address is known, or can with reasonable diligence be ascertained.

**PRELIMINARY RESOLUTION DECLARING INTENT
TO EXERCISE SPECIAL ASSESSMENT POWERS
UNDER SECTION 66.0703, WISCONSIN STATUTES
May 7, 2019**

WATER MAIN AND WATER SERVICES

BY THE COMMON COUNCIL OF THE CITY OF GREEN BAY, RESOLVED:

1. The Common Council hereby declares its intention to exercise its police powers under Section 66.0703, Wisconsin Statutes, and levy special assessments upon property fronting or abutting the streets hereinafter enumerated for the installation of WATER MAIN AND WATER SERVICES on said streets:

SPARTAN ROAD – Humboldt Road to Luxemburg Road

2. Said public improvement shall include the installation of water main and water services with necessary appurtenances in accordance with the City of Green Bay Standard Specifications and Construction Standards for Public Works Construction.
3. The total amount assessed against all parcels in the project shall not exceed the total cost of the improvement.
4. The assessments against any parcel may be paid in cash within thirty (30) days of the date of billing, or in five (5) annual installments with interest thereon at four and one-half percent (4.5%) per annum in accordance with Section 9.44, Code of Ordinances of the City of Green Bay.
5. The improvements contemplated in this resolution shall constitute an exercise of the police powers of the Common Council under Section 66.0703(5)(d), Wisconsin Statutes.
6. The General Manager of the Water Utility is directed to prepare a report in accordance with Section 66.0703(5), Wisconsin Statutes.
7. Upon receiving the report, the City Clerk shall give to the property owners notice of a public hearing on such report as specified in Section 66.0703(7)(a), Wisconsin Statutes, to be held before the Improvement & Services Committee in the City Hall at such times as set by the City Clerk.
