SHELTER INAPPROPRIATE/CHRONIC RESOURCES REPORT

This document is being produced per request of Alderman Galvin to be issued to the Protection and Policy Committee. This report will attempt to quantify the amount of resources utilized by persons who are “shelter inappropriate” and those who chronically consume community resources. Shelter Inappropriate is described as, *‘people who are unsheltered and not accepted in the current shelters that Green Bay offers. These persons are not engaging in, or able to engage in, placement in a standard shelter setting at the present time due to either the inability to provide adequate self care or because of high barrier needs like mental health and/or AODA.’* Information that will be tracked will include: # of police contacts, # of time spent on calls, whether or not the subject needed Fire/Rescue, ER, or went to Jail, public/private or park property and disposition. Note: if more than one officer was on a call, police time will be doubled. To simplify this report, if two subjects were on the same call, the number of police minutes will be doubled as well.

Individuals will be tracked by a number and no personal information will be given. The information that will be tracked will allow stakeholders to assess long term solutions to lower the amount of community resources utilized by this group of individuals. It is important to note that these numbers are approximate and not exact numbers in both minutes consumed and dollar value. This is the final report which will be given to Protection & Policy.
