

AGENDA OF THE FINANCE COMMITTEE

TUESDAY, FEBRUARY 28, 2023, 4:30 PM

In person at City Hall, Room 207.

Virtual attendance also available via Zoom.

AMENDED

A. Zoom Meeting Information.

1. This item contains Zoom information, instructions, and a link to the Virtual Comment Form.

B. Roll Call.

1. Members: Ald. Brian Johnson, Ald. Jesse Brunette, Ald. Bill Galvin & Ald. Jim Hutchison.

C. Approval of the Agenda.

D. Approval of Minutes.

1. Approval of the Finance Committee minutes from the January 31, 2023 meeting.

E. Regular Business.

1. For discussion with possible action on the approval of services to The National Institute of Criminal Justice Reform (NICJR) for gun violence reduction strategy for \$150,000.00.
2. For consideration with possible action on a new Lease Accounting Policy.
3. A request by Ald. Brunette to the Finance Committee which states: "For discussion and disclosure on the possible legal expenses regarding the audio recording issue and pending lawsuit."
The Committee may convene in closed session pursuant to Section 19.85(1) (g), Wis. Stats., for the purpose of conferring with legal counsel for the governmental body who is rendering oral or written advice concerning strategy to be adopted by the body with respect to litigation in which it is or is likely to become involved. The Committee will thereafter reconvene in open session pursuant to Section 19.85(2), Wis. Stats., to take action on items discussed in closed session, if appropriate, and to consider the remainder of the agenda.
4. Consideration with possible action on the Second Amended 2023 City of Green Bay Fee Schedule.

F. Informational.

1. 1. 2023 Contingency Account: \$250,000.00.
2. 2. The next Finance Committee meeting will be held on Tuesday March 14, 2023 at 4:30 PM.

G. Adjournment.

- 1) THIS MEETING IS RECORDED: THE VIDEO OF THIS MEETING AND MINUTES ARE AVAILABLE ONLINE AT www.greenbaywi.gov
- 2) ACCESSIBILITY: Any person wishing to attend who requires special accommodation because of a disability, should contact the City Safety Manager at 920-448-3125 at least 48 hours before the scheduled meeting time so that arrangements can be made.
- 3) QUORUM: Please take notice that a majority or quorum of the Common Council will attend this Finance Committee meeting and will constitute a meeting of the Common Council for purposes of discussion and information gathering relative to this agenda.
- 4) REPRESENTATION: The party requesting the communication, or their representative, should be present at this meeting.

Public Comments

If you wish to speak at this public meeting or leave a comment, please fill out the online [Comment Form](#) prior to the meeting.

Additional Information

1. Wisconsin Open Meetings Law still applies
 - a. Persons interested in speaking to an item must state their name and address for the minutes.
 - b. Committee/Commission/Board members will still follow *Roberts Rules of Order Newly Revised 12th edition*.
2. Please log into the Zoom meeting at least 10 minutes before the meeting begins to ensure a proper connection and that your technology is working.
 - a. If you are a Board Member, please log into [CivicClerk](#) with a computer, laptop, or tablet device.
3. Once you are in the meeting please mute yourself.
 - a. You may unmute yourself when you are called upon to speak.
4. Waiting room
 - a. When you call in or connect via web or Zoom app, you will be placed in a "waiting room."
 - b. The meeting host will then admit you to the meeting, and mute you upon entrance (you will still be able to hear and or otherwise observe the meeting).
5. Registering
 - a. The host may ask you to register for the meeting. A registration link will be sent to you along with the invite. You'll receive another email confirming that you're registered for the meeting.
 - b. If you're using a phone, your registration will be tied to an email.
6. Raising your hand
 - a. Committee/Commission/Board members—you can either use CivicClerk and request to speak or you can also utilize the "raise your hand" tool in the Zoom platform (you'd need to use a computer or tablet) to let the host know you would like to speak. You can also un-mute yourself and start speaking.
 - b. Persons with items on the agenda or other interested parties—you can also utilize the "raise your hand" tool on the Zoom platform via computer or mobile device. You will be allowed to speak once the committee, commission, or board has moved to "open the floor for interested parties to speak." Once discussion on your agenda item has concluded, the host will mute you, unless the committee opens the floor again.
7. What devices should I use?
 - a. Smart phone (please see more detailed instructions on page 3)
 - b. Land line
 - c. Tablet—in advance of the meeting, please download the Zoom Meeting app by using either the Apple Store or the Play Store. You will be asked to input your name, to identify you for the meeting.
 - d. Computer—you can access the meeting through a web browser by clicking on the meeting link, or through the Zoom Meeting app. If using the app, please download it in advance of the meeting. You will be asked to input your name, to identify yourself for the meeting.
 - e. For tablet and computer users—if you download the app you may be asked to verify your email.

8. Zoom etiquette
 - a. Muting yourself when you're not speaking will prevent your background noise from interfering with others' ability to listen to and participate in the meeting.
 - b. If you're using a telephone, please identify yourself with your phone number and state your name and address before you speak. Zoom meeting hosts can see only your telephone number and will ask you to identify yourself.
9. Closed session
 - a. Persons in the Zoom meeting will be put into a waiting room while the committee/commission/board meets in Closed Session. Participants will be admitted back into the Zoom meeting once the committee reconvenes in Open Session.
 - b. Persons watching a Common Council meeting live on YouTube will see a gray screen with the City logo during closed session.
10. Persons interested in attending anonymously or listening to the meeting may call in by dialing *67 followed by the phone number in the Zoom Meeting Information box.

Calling into the Zoom meeting using a smartphone

1. Dial the phone number listed at the beginning of this document.
2. When prompted, enter the Meeting ID number followed by #
3. Once you are in the meeting, notify the meeting host that you are in and state your name.
4. If you do not wish to speak, please make sure your phone is on **Mute**
 - a. If you're using a smartphone, look at your screen and click the Mute button

MEETING DATE

February 28, 2023

PREPARED BY**AGENDA ITEM # E.2**

For consideration with possible action on a new Lease Accounting Policy.

BACKGROUND

New Policy for lease accounting.

Purpose to provide a consistent basis for accounting following the guidance of the Governmental Accounting Standards Board Statement No. 87 (GASB 87), "Leases," applicable accounting guidance requiring recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as income by lessors and expenditures by lessees.

RECOMMENDATION

To Approve

FISCAL IMPACT**ATTACHMENTS**

- I. Lease Policy submitted to Finance Committee 2-28-2023

Lease Accounting Policy

Purpose

The purpose of this policy is to provide a consistent basis of accounting for City of Green Bay (the City) and Green Bay Metro (GBM) with respect to lease accounting. Governmental Accounting Standards Board Statement No. 87 (GASB 87), "Leases," is the applicable accounting guidance requiring recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as income by lessors and expenditures by lessees. It establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. The City and GBM are required to recognize a lease liability and an intangible right-to-use lease asset (as the lessee) and are required to recognize a lease receivable and income (as the lessor), thereby enhancing the relevance and consistency of information about the City and GBM's leasing activities.

GASB 87 defines a lease as a contract that conveys control of the right to use another entity's nonfinancial asset as specified in the contract for a period of time in an exchange or exchange-like transaction. Examples of nonfinancial assets include buildings, land, vehicles, and equipment.

GASB 87 specifically excludes the following from lease accounting guidelines:

- Leases of intangible assets;
- Leases of biological assets;
- Leases of inventory;
- Service concession arrangements (as specified in GASB 60);
- Leases of assets financed with outstanding conduit debt;
- Supply contracts;
- Leases of assets that are investments; and
- Certain leases subject to external laws, regulations, or legal rulings.

Identifying a Lease in a Contract

Once a contract is executed, the City and GBM will perform an assessment to evaluate if the contract contains a lease. At the inception of the arrangement, a determination shall be made whether the contract contains a lease by assessing both of the following:

1. Whether there is an identified, non-financial asset; and
2. Whether the contract conveys the right to control the use of the identified asset in exchange for consideration for a period of time.
 - a. Two tests must be met:
 - i. The right to obtain the present service capacity from use of the underlying asset as specified in the contract; AND
 - ii. The right to determine the nature and manner of use of the underlying asset as specified in the contract.¹

GASB 87 requires a difference accounting treatment for each of the following three categories of contracts:

- 1) **Short-term leases:** Defined as a lease that, at the commencement of the lease term, has a maximum possible term under the lease contract of 12 months (or less), including any options to extend, regardless of their probability of being exercised. For a lease that is cancelable by either the lessee or the lessor, the maximum possible term is the noncancellable period, including any notice periods. Lessees and lessors should recognize short-term lease payments as outflows of resources or inflows of resources, respectively, based on payment provisions of the lease contract.
- 2) **Contracts that transfer ownership (financed purchases):** Defined as a contract that (a) transfers ownership of an underlying asset to the lessee by the end of the contract and (b) **does not contain termination options** but may contain a fiscal funding or cancellation clause

¹ Although GASB does not provide additional interpretive guidance on the “nature and manner of use,” City of Green Bay and Green Bay Metro look at the control over those decision-making rights that are most relevant (i.e., most significant) to the economic benefits derived from an asset’s use. Examples are: 1) right to change the type of output; 2) right to change when the output is produced; 3) right to change where the output is produced; 4) right to change whether output is produced and, if so, the quantity produced.

that is not reasonably certain of being exercised. This should be reported as a financed purchase of the underlying asset by the lessee or a sale of the asset by the lessor.

- 3) **Leases other than short-term leases and contracts that transfer ownership (Right to Use (RTU))**: All other leases that do not meet the definition of short-term leases or contracts that transfer ownership.

Capitalization Threshold

The City and GBM have adopted a capitalization threshold of \$5,000 for a leased asset at the lowest identifiable level. If the City and GBM is the lessee of a separately identifiable asset with a net present value at inception less than or equal to this amount, the lease will not be recorded on the balance sheet (neither the RTU asset nor the liability).

Lease Term

The lease term is the period during which a lessee has a noncancellable right to use an underlying asset, plus the following periods, if applicable:

- Periods covered by the lessee's option to extend the lease when reasonably certain the lessee will exercise this option.
- Periods covered by the lessee's option to terminate the lease when reasonably certain the lessee will not exercise this option.
- Periods covered by the lessor's option to extend the lease when reasonably certain the lessor will exercise this option.
- Periods covered by the lessor's option to terminate the lease when reasonably certain the lessor will not exercise this option.

Periods where both the lessee and the lessor have an option to terminate or extend the lease without permission from the other party are cancelable periods and are excluded from the lease term.

Reassessments

Lease term should be reassessed if one or more of the following occur:

- Lessee or lessor elects to exercise an option even though previously determined that it was reasonably certain they would not exercise that option.
- Lessee or lessor elects not to exercise an option even though it was previously determined that it was reasonably certain they would exercise that option.
- Event specified in the lease contract that requires an extension or termination takes place.

Modifications

A modification occurs when changes occur in the terms of a lease contract and is typically issued in the form of an amendment to the lease based on the renegotiated terms between the City and GBM and the counterparty. The effective date of the modification is when the amendment is signed by both parties. When a modification occurs, the modification would be treated as if it were a separate lease if:

1. The modification gives the lessee an additional lease asset by adding one or more underlying assets that were not included in the original lease contract, AND
2. The increase in lease payments for the additional lease asset does not appear to be unreasonable based on (1) the terms of the amended lease contract and (2) professional judgement, maximizing the use of observable information.

If the modification is not accounted for as a separate lease, the City and GBM will measure the lease liability using the then-current discount rate and adjust the RTU asset for the modified lease as of the modification date.

Initial Direct Costs

Initial direct costs are incremental costs of a lease (excluding the City and GBM labor) that would not have been incurred if the lease had not been obtained. The City and GBM do not have incremental costs typically but would capitalize them as part of the lease asset if any were identified.

Identifying Lease Components

A lease component is a right to use an underlying asset (i.e., a lease) or a bundle of rights to use underlying assets (e.g., building, equipment, floor space, etc.). Some contracts may contain the RTU multiple assets; however, each individual asset is only a separate lease component if the criteria below are met:

1. The City and GBM can benefit from the RTU asset either on its own or together with other resources readily available to the City and GBM, AND
2. RTU is neither highly dependent on, nor highly interrelated with, the other RTU(s) in the contract.

Key additional guidance:

- Notwithstanding the guidance above, the City and GBM will account for the RTU land as a separate lease component unless the accounting effect of doing so would be insignificant (for example, separating the land element would have no effect on the lease classification of any lease component or the amount recognized for the land lease component would be insignificant).
- Variable rental payments that depend on an index or a rate (such as the Consumer Price Index or market interest rate) are included in lease calculations using the index or rate as of the commencement date. Note: In future periods when the rate or index changes, the lease liability will not be remeasured for this difference. Other variable payments are excluded from lease calculations.
- Rental payments that are in-substance fixed (i.e., variable payments but provides for a minimum or floor payment that must be made, therefore this floor amount of the payment is unavoidable) are also included in lease calculations.

Non-lease components are defined as other components in the contract that transfer a good or service (e.g., common area maintenance, equipment maintenance, use of shared gym in a building, etc.). If a contract contains lease and non-lease components, the lease and non-lease components are accounted for as separate contracts.

Contracts may include other activities which do not transfer a good or service to the lessee. These are not considered components of the contract. An example of this is a reimbursement or payment (to a third party or to the lessor) of the lessor's costs, such as property tax or insurance. Sales taxes paid by the lessee are not components of the contract.

Amortization of Lease Asset

Lease assets are amortized straight-line over the shorter of the lease term or the useful life of the underlying asset, except if a lease contains a purchase option the lessee has determined is reasonably certain of being exercised, then the lease asset should be amortized over the useful life of the underlying asset.² The useful life of an asset is the period over which the asset is expected to contribute directly or indirectly to future cash flows. The useful life of an asset can differ depending on the asset's intended use by the City and GBM.

LEASE ACCOUNTING

The City and GBM as the LESSEE:

- GASB 87 requires a lessee to recognize a lease liability and an intangible asset representing the lessee's right to use the leased asset as the commencement of the lease.
- GASB 87 requires the lessee to measure its lease liability as the present value of all payments expected to be made during the lease term.
- Variable payments based on future performance of the lessee or usage of the underlying asset should be expensed as incurred, and not included in the measurement of the lease liability.
- The lease asset should be measured at the amount of the initial measurement of the lease liability, plus any payments made to the lessor at or before the commencement of the lease term.
- The lessee should assess each lease liability annually for changes in the terms of the lease, interest rate, impairment of the underlying leased asset, or other factors that may impact the expected lease payments. Lease amendments and other modifications could necessitate remeasuring the lease liability.

² In that circumstance, if the underlying asset is non-depreciable, such as land, the lease asset is not amortized.

- The lessee government will generally report amortization expense for the lease asset over the shorter of the term of the lease or the useful life of the underlying asset, disclosed separately from other capital assets.
- The lessee will calculate the amortization of the discount on each lease liability in subsequent financial reporting periods, and report that amount as interest expense.
- The lessee's financial statement footnote disclosures will include the following:
 - A general description of the leasing arrangements
 - The total amount of lease assets recognized.
 - Related accumulated amortization, disclosed separately from other capital assets.
 - Amount of lease assets by major classes of underlying assets, disclosed separately from other capital assets.
 - Principal and interest requirements to maturity, for the lease liability for each of the five subsequent fiscal years, and in five-year increments thereafter.
 - A description of variable payments and other payments not included in the lease liability, and the expense recognized in the reporting period for these payments.
 - Impairment losses and any significant related changes in the lease liability.

The City and GBM as the LESSOR:

- GASB 87 requires the lessor to recognize a lease receivable at the present value of lease payments anticipated to be received during the lease term, reduced by any provision for estimated uncollectible amounts.
- The lessor will recognize a deferred inflow of resources at the initial value of the lease receivable, plus the amount of any payments received at or before the commencement of the lease term that relate to future periods.
- The lessor will continue to report the asset underlying the lease in its financial statements. The lessor should continue to apply applicable accounting guidance to the asset, including depreciation and impairment.
- The lessor should assess each lease receivable annually for changes in the terms of the lease, interest rate, impairment of the underlying leased asset, or other factors that may impact

the expected lease payments. Lease amendments and other modification could necessitate remeasuring the lease receivable.

- The lessor will report lease revenue, systematically over the term of the lease, corresponding with the reduction of the deferred inflow.
- The lessor will calculate the amortization of the discount on each lease receivable in subsequent financial reporting periods, and report that amount as interest revenue.
- The future lease payments to be received should be discounted using the interest rate the lessor charges the lessee, which may be the interest rate implicit in the lease.
- The lessor's financial statement footnote disclosures will include the following:
 - A general description of the leasing arrangements.
 - The total amount of revenue recognized from the leases.
 - A description of variable payments and other payments not included in the measurement of the lease receivable. This includes revenue related to residual value guarantees and lease termination penalties.
 - If the lease payments serve as security for debt issued by the lessor, the existence, terms, and conditions of options for the lessee to terminate the lease or abate lease payments.
 - If material, the lessor should disclose a schedule of future payments that are included in the lease receivable, showing principal and interest requirements to maturity, for each of the five subsequent fiscal years, and in five-year increments thereafter.
