AUGUST 2026

Traffic Safety Plan

Traffic complaints are the #1 complaint made to the Green Bay Police Department and City Alderpersons. The Police Department is committed to safe travels for motorists, pedestrians, and bicyclists. With a goal of reducing traffic crashes, property damage, injury, and death on Green Bay's roadways, the Police Department will use a data driven approach for traffic safety. Data analytics from crash data, citizens complaints, and traffic data resources will be used to identify traffic emphasis areas. Each month's report will be posted on the Police Department's website and will be presented at the Traffic, Bicycle, and Pedestrian Commission meeting.
